SKILLS

• Core Java	• Collection Framework	• Java 1.8	• Mysql	• jdbc	• SQL
• Oracle	• ORM	• J2EE	• Hibernate	• Spring Framework	• Core
• Spring mvc	• Spring Boot	• Spring Jpa	• Gitlab	• Bitbucket	
• GitHub	• Apache9.0v	• Json	• XML	• Swagger	• Postman
• Angular	• Angular Material	• Java Script (TS)	• HTML	• Css	
• STS IDE	• IntelliJ idea	• Graph QL			

KEY ACHIEVEMENTS

★ My Achievements

Hand on experience in Web/API/RAPID Application Development & Designing using Java 1.8/J2EE, Spring Boot, RESTful Services, and Microservices, JPA Repository & Hibernate technologies .

Hands on experience on Core Java 1.8, Apache Kafka, Spring Boot, Angular Basic, JPA Repository, Rest Api, Micro Services Basic.

Hands on experience on Eclipse, IntelliJ, STS IDE tool for the development of java projects.

Hands on experience in Tomcat web servers.

Experience in Oracle, and MySQL database.

Hands on experience in Git Repository, GIT/HUB.

Cohesive team worker, having strong analytical, problem solving and interpersonal skills.

Adaptive to learn new technologies.

Experience in methodologies like Agile and waterfall.

EDUCATION

BCA

Siddharth University

WORK EXPERIENCE

Fresher

STRENGTHS

Team Collaboration:

Proven experience working in cross-functional teams, contributing to project success through clear communication and collaboration.

Adaptability and Learning:

Quick to adapt to new technologies and methodologies, with a continuous drive for learning and staying updated with industry best practices.

Efficient problem-solving skills: with a focus on performance optimization and code quality.

Strong Core Java Knowledge

Proficiency in Java fundamentals like OOP (Object-Oriented Programming), collections, multithreading, and exception handling.

Understanding Java versions (e.g., Java 8+ features like streams, lambdas, and functional programming).

SUMMARY

Experienced **Java Developer** in building robust web apps and using Java, Spring Boot, Angular, and MySQL. Proficient in designing scalable back-end services, developing RESTful APIs, and implementing security protocols with Spring Security. Strong hands-on experience in requirement analysis, system design, and end-to-end development of software solutions. Passionate about creating high-performance, user-centric applications with a focus on quality, maintainability, and seamless user experiences

CERTIFICATION

Oracle Cloud Infrastructure Certified Foundations Associate

Oracle University

PROJECTS

Audit Management Software

Developed the Risk Management Module and led a team of 3-4 developers. Utilized Liqui-base, Spring Boot, and Angular for module integration and feature delivery, achieving a 90% improvement in risk identification accuracy.

e-DigiSalesSystem

The **e-DigiSalesSystem** is a digital sales management platform designed to streamline and automate the sales process of an organization. It aims to provide a comprehensive solution for managing product catalogs, customer orders, sales representatives, and real-time analytics. The system focuses on enhancing the efficiency of sales operations, improving customer experiences, and ensuring seamless order tracking and management.

Exam Portal

The **Exam Portal** allows students to take quizzes online while offering comprehensive admin capabilities. Admins can create, update, and manage quizzes, including setting questions and configuring quiz parameters. The system ensures smooth quiz functionality for students, with features like time limits and result tracking. It also provides detailed reporting for both students and administrators.
